*Dhanajay Chair Professor*

29 Oct 2020

**To Whomsoever It May Concern**

Mr. Ansh Mittal has worked on the IMPRINT project “Game-based Interactive Simulator for Training in Cyber Security” at Indian Institute of Technology Delhi from 10th January 2020 to 09 July 2020 as research associate and later from 10 September 2020 to 19 October 2020 as a junior research assistant.

In the intervening period from 10 July 2020 to 09 September 2020 he continued to refine, in his personal time, a serious game titled CEBT (Cybersecurity Enhancement through Blockchain Technology) that was conceived during his formal association with project and he also converted this effort to a research paper. This research paper is currently under review at “International Journal of Information Management Data Insights”.

The serious game CEBT attempts to teach Blockchain technology using Unity3D Game Engine.

Mr Ansh Mittal has been diligent, sincere, and productive during his time of employment. I wish him success in his future ventures.

Sincerely

(M.P.Gupta)
